

Message from Shri Tripurari Sharan, IAS, Director General, Doordarshan (Prasar Bharati) of India.

Robotic Contest or “ROBOCON” is a scintillating intellectual exercise which has created enormous interest for budding engineers and enthusiastic TV viewers across the Globe, more so in countries Pan Asia, under ABU Umbrella. We at Doordarshan have been entrusted the task to hold the contest as the official Broadcaster year after year alongwith Maharashtra Academy of Engineers, Pune.

I wish the event a grand success and hope competitors exhibits great ingenuity to make the event more interesting.
